Arthur B Douglass III

ABD3@IntuiCAD.com, LinkedIn

Professional Summary

Senior Structural Designer with 35+ years of experience delivering precise contract documents across diverse project types and site conditions. Known for disciplined drafting judgment, constructability-focused detailing, and the ability to resolve complex structural decisions into drawings that support efficient fabrication and reliable field execution.

Core Skills & Technical Expertise

Structural Design & Detailing – Concrete and steel systems including structures, framing, foundations, seismic and jointing considerations, additions, platforms, and mezzanines; constructible documents informed by placement, sequencing, and system performance.

Project Delivery & Design Judgment – Leadership in high-volume production and multidisciplinary coordination; translation of engineering intent into efficient, buildable solutions; experience-driven challenge of design assumptions to improve economy and constructability.

Field Integration & Analysis – Extensive on-site experience, existing-condition verification, and contractor coordination; early identification of structural risk through disciplined, experience-based analysis and field-informed decision-making.

CAD/BIM & Technical Tools – Advanced use of AutoCAD, Revit, Navisworks, and IntuiCAD to support structural detailing, constructability review, efficient delivery, and process improvement.

Efficiency is not procedural—it emerges from experience, observation, and knowing when to apply principles rather *than steps.*

Drafting is the structured language of engineering, where intent is translated into drawings, models, and details that communicate clearly and unambiguously from concept through construction.

Commercial & Mixed-Use

Four Seasons Hotel (Fort Worth, TX)
Edgewood Town Center (Pittsburgh, PA)
East Side Market (Cleveland, OH)
TravelCenters of America (Multiple)
Applied Technologies HQ (Cleveland, OH)
Amoco Oil Headquarters Renovation (Chicago, IL)

Educational & Institutional

George Allen Courthouse (Dallas, TX)
Emmett Conrad High School (Dallas, TX)
Silberstein Elementary School (Dallas, TX)
Akron Polymer Science Complex (Akron, OH)
Kauffman County Jail (Kauffman, TX)
UT Callier Center (Dallas, TX)

Recreation & Entertainment

Ohio Stadium Renovation (Columbus, OH)
Cleveland Browns Stadium (Cleveland, OH)
Belle of Baton Rouge Casino (Baton Rouge, LA)
Cincinnati Zoo Giraffe Exhibit (Cincinnati, OH)
Cedar Point Waterslide & Aquarium (Sandusky, OH)

Aviation & Transportation

Greater Pittsburgh International Airport (Pittsburgh, PA)
UPS Worldport 9 phases (Louisville, KY)
Guangzhou Baiyun International Airport (Guangzhou, China)

Arthur B Douglass III

Professional Experience

Across all roles, responsible for translating engineering intent into concise, complete, contract documents—developing the models, drawings, details, sketches, and visualizations needed for clear communication and accurate construction. Early career involvement in field supervision, existing-condition verification, and shop drawing development provided valuable insight that continues to inform disciplined design delivery.

Hazen and Sawyer — Senior Principal Designer (Raleigh, NC) | 2025–Present

Ramboll/O'Brien & Gere/Penta — Structural Designer (Charlotte, NC) | 2007–2025

Steven Schaefer Associates — Structural Designer (Cincinnati, OH) | 2005–2007

Charles Gojer & Associates — Structural Designer (Dallas, TX) | 2001–2004

URS Corporation — Structural Designer/CADD Coordinator (Columbus, OH) | 1998–2001

Osborn Engineering — Structural Designer (Cleveland, OH) | 1996–1998

Middough Associates — Structural Designer (Cleveland, OH) | 1991–1995

Gensert Bretnall Associates — Structural Designer (Cleveland, OH) | 1986–1991

Work already done is nearly free; the cost rises with every step required to access, alter, and implement change.

Industrial & Manufacturing Facilities
Owens Corning (Gastonia, NC, Joplin, MO)
AlphaPet Indorama PET Facility (Decatur, AL)
BASF (Multiple)
Elkem/Bluestar Silicones (York, SC)
B.F. Goodrich (Multiple)
Frito-Lay (Pulaski, TN, Beloit, WI, Plano, TX, Aberdeen, MD)
Manco Manufacturing & Distribution (Avon Lake, OH)
Air Products Headquarters (Cleveland, OH)
Louisiana Pacific Roxboro Refit (Roxboro, NC)
Energy & Utilities
Duke Energy (Cliffside, NC)
Quest Data Center (Undisclosed Location)
Reclamation & Recycling Facilities
Hydro Aluminum (Cassopolis, MI, Elkhart, IN)
JW Aluminum (Goose Creek, SC)
Matalco (Lordstown, OH, Wisconsin Rapids, WI)
TIMET (Toronto, OH)
Cedar Point Aquarium Renovation (Sandusky, OH
Medina Public Square Mapping (Medina, OH)
Water Treatment & Environmental
Bachman Water Treatment Plant (Dallas, TX)
Kauffman County OSSF Facility (Kauffman, TX)

Education

Hickok Technical Institute — Technical Training (1986)
Stark State College — Additional Technical Coursework
Ongoing Independent Studies — Software, codes, specifications, and professional development
